

Thursday 7 January

The school is closed today as the site remains dangerous due to snow and ice.

Please visit this website tomorrow for information about opening on Friday. A message will be posted by 6.45am.

All students have work to undertake during this period of school closure. All classes in Y9/10/11 have work posted on the VLE (see school website home-page if you need a reminder of your log-in details). All students can access SAM-Learning (see below for a reminder of your log-in details) and select topics from English, Maths and Science.

All students in Y9 have been set work in BCS today – check your email on the VLE.

For students in Y10 and Y11 with Science exams next week this is an especially important time to use for exam preparation. Access materials as above or use the BBC Bitesize website or access the AQA website for past papers and mark schemes. In particular for Y11 module re-sits, choose from the three revision sites on the VLE in your class page (Core Biology, Core Chemistry, Core Physics).

Mr Carroll

SAM-Learning log-in (for Tom Smith born on 1 April 1995)

Centre No: LU7VU2
