Dear Parent /Carer,

I am writing to inform you of the opportunities of revision provided by the Science department in the lead up to the Science exams on the 16th, 18th and 24th May and 9th, 14th and 16th June.

So far your child has not attended the sessions consistently. However the last few weeks are crucial and can make the difference as we complete final preparation for these examinations.

These sessions will be taught by either myself or another experienced member of the Science Team and will focus on all sections of the two GCSE Science courses. In addition these sessions will help students to practice their exam technique and provide key tips on how to be successful in the exams.

It has been evident in previous years that regular attendance at these revision sessions build confidence in students and have historically resulted in better outcomes.

These sessions will run as follows:

Friday 7th April (During the Easter break) – 9am to 12:30am – Physics and Chemistry

Friday 21st April – 3:30pm to 4:30pm – Biology (*separate session for Triple students*)

Friday 28th April – 3:30pm to 4:30pm – Physics

Friday 5th May – 3:30pm to 4:30pm – Chemistry

Friday 12th May – 3:30pm to 4:30pm – Biology (*separate session for Triple students*)

Friday 19th May – 3:30pm to 4:30pm – Physics

Friday 26th May – 3:30pm to 4:30pm – Unit 2 Exam Techniques

Please support your child by encouraging them to attend. Spaces are limited over Easter so students need to inform teachers of their plans to attend or their place will be offered to another student.

Yours sincerely,

Mrs Katy Egginton

Team Leader Science
